

Zoltan Toth

Owner, CEO

TZM 11 Ltd

<http://www.tzm11.hu/>

Bilateral Meetings

- Wednesday 13:00 - 17:00

Description

Mechanical Engineering services, special purpose machines

Organization Type

Company

Email

tzm.11.kft@gmail.com

Country

Hungary

City

Szeged, Moszkvai krt. 20/a III./9. [Google map](#)

Areas of Activities

Food and drink Producers and Traders

Agriculture machinery and equipment

Packaging

Processing and greenhouse equipment

Applied science and research

Innovative technologies in agriculture

Idea

Tractor mounted celeriac root harvester

We have a solution for harvesting celeriac roots. Even prototype had been built.
We are interested in the utilizing it.

Keywords: celeriac root celeriac root harvesting tractor adapter
Cooperation Offered

1. Technical co-operation
2. Other

Idea

Chip budding of field rose or other plants (e.g. fruit trees) automatization technology

We have a patent pending solution for chip budding of field rose or other plants automatization technology.
We are interested in the utilizing it.

Keywords: field rose chip budding T-budding grafting
Cooperation Offered

1. Other
2. Technical co-operation

Idea

Industrial hemp harvesting technology

We have a patent pending solution for harvesting industrial hemp by more than two stem cutting.
We are interested in the utilizing it.

Keywords: industrial hemp harvesting agriculture technology harvesting
Cooperation Offered

1. Technical co-operation
2. Other

Offer

Special purpose machines, mechanical engineering

We offer services to the current and prospective partners in the following areas:

- Complete machine design, drawings, preparation of production documentation
- Technical calculations (mechanical, structural, strength, flow and thermal and electro-mechanical), trouble shooting
- Technical documentation, preparation of manuals

- Hydraulic and pneumatic equipment design and repair
- Automation, follow-up automation

We offer free capacity of special purpose machine design for many areas of industry.

Co-operation area: all EU countries.

We can make machines also with our manufacturing partners, workshops.

We offer the following products:

- Centrifugal feeders for large feeding capacity (above 200pcs/min) e.g. for biscuits, cucumber, small simple parts
- PET bottle cap slitter machine from dia 25 to dia 63mm and height 10mm to 35mm, with capacity 13500/hour
- Pneumatic manipulators
- Hydraulic cylinders and power packs
- Special purpose machines for many industry areas

Cooperation Offered

1. Technical co-operation
2. Other
