## BILATERAL MEETINGS

Wednesday 13:00 - 17:00

**DESCRIPTION** For more than 30 years we have been specialising in the production and in the development of problem-solving products related to the animal nutrition and health in rearings. Our project is the management of the rearing with a particular attention to the ration optimization with the use of vitamin and mineral complementary feeds, probiotics and special feeds. Our distinguishing philosophy is the aims to improve the rearing system in all its aspect: nutritional, managerial, sanitary and economic.
