Bilateral Meetings

- Wednesday 13:00 - 17:00

Description

MAF RODA AGROBOTIC is specialized in engineering and manufacturing turnkey grading, sorting and packing installations for over 40 types of fresh fruits and vegetables. Working in over 60 countries brings MAF RODA a wide expertise about the various markets. Our automation, electronics and mechanics departments are attentive to the customers' needs and are eager to offer automated and ergonomic working solutions with a wide range of machines for the automated handling of boxes, pallets and bins.
