Bilateral Meetings

- Wednesday 13:00 - 17:00

Description

Biofor System Ltd was founded in 2005. Since the very beginning, the company has produced and distributed microbial products - biofertilizers, biostimulators etc. The Company's brand is BIOFOR which includes six different products for various crops and purpose of use. The goal is to become the leading regional bio-company, with the objectives to prepare new PGPB products for sustainable agriculture, especially organic, to increase consumers' confidence in the benefit of microbiological products and to increase their market.
